### **INDOOR MIXED ULTIMATE TEAMS BIDS AND LOTTERY PHASES.**

Due to the limited number of spots indoors and the demand for those spots MODS uses a pre-registration format to assign team bids. These spots are determined via a two-phase lottery process. The majority of spots are guaranteed to returning teams. The info below explains the process.

**Pre-registration** – teams fill in this google form to express interest in a team spot for the league.

From the teams that pre-register by the deadline there are two lottery phases.

**Phase 1** – 43 of the 48 team spots are designated for returning teams (see team status below). A lottery of eligible teams is used to fill the spots. Returning teams not selected in this phase remain eligible for Phase 2 of the lottery. Any unused spots from Phase 1 are carried over into Phase 2.

**Phase 2** – All new teams and any undrafted teams from Phase 1 are included in Phase 2 to assign the remaining bids (5 or more spots).

**After Phase 2** any unfilled spots are open on a first come first served basis.

Teams assigned a bid will be instructed by Corey to register and pay for their team online. Teams are given a short window to complete registration. In the event that a team doesn't register and pay quick enough they may lose their spot to a wait list team.

### **Team Status Definitions**

**Returning Fall 2021 Team** – This is the 56 teams that played last fall. They get top priority.

---

**Returning Team from another season** – Eligible for the Phase 1 lottery but at a weighted disadvantage in the lottery.

**New team** – a team that has not played in our indoor league before.

**Transferring bids** – captains can pass along their bid status to other teammates. Just send an email with the old captain and the new captain included explaining the change.

**Teams dropping out after the lottery process** –will be replaced through the waitlist in the order the teams were drawn. These teams may be subject to the refund policy depending on the timing of the withdrawal and whether there is a team to replace them or not.
